PAYNE TARIFF BILL PASSED

Goes Through the House With Votes to Spare.

ONE REPUBLICAN AGAINST IT

While Four Democrats Vote in Favor of the Measure—Attempt by Minority Leader Clark to Recommit the Bill With Instructions Signally Failed—Republicans Cheer Passage of the Measure.

Washington, April 10.—After three weeks of consideration the Payne tariff bill was passed by the house of representatives by a vote of 217 to 161. One Republican, Austin (Tenn.), voted against the measure and four Democrats, all from Louisiana, Messrs. Broussard, Estopinal, Pujo and Wickliffe, voted for it. An attempt by Champ Clark, minority leader, to recommit the bill with instructions signally failed.

The day was filled with excitement from the moment the session began until the minute of adjournment. The members were keyed up to the highest pitch and a practically full membership remained on duty throughout. The final vote demonstrated the capacity of the Republican organization to get together. The situation with respect to lumber was greatly relieved to the Republican leaders when it became manifest that advocates of the proposition placing it on the free list were in the minority. Because of that fact, Mr. Fitzgerald (N. Y.) charged that a midnight deal had been made Thursday night whereby free lumber was to be voted down and the rates on barley and barley malt increased, and this notwithstanding the denials of Messrs. Mann (Ill.) and Cushman (Wash.), who offered the barley amendments.

The general public was greatly interested in the proceedings and the galleries were packed. Both the diplomatic and executive reservations likewise were fully occupied. Mrs. Taft being among those present.

When the bill actually was passed the Republicans cheered lustily, some dancing up and down the aisles and patting their fellow members on the back.

After adopting a resolution that until further orders sessions shall be held only on Mondays and Thursdays, the house adjourned.

HANDLED BILL ON THE FLOOR

Chairman Payne Engineers Tariff Measure Through.

Washington, April 10.—While more consideration in point of time has been given by the house to the Payne bill, it was passed in fewer days than the Dingley bill was acted upon after being reported to the house. The Payne bill was introduced on March 17, reported to the house by the ways and means committee on the following day, and was under general debate for sixteen days. On Monday of the present week the rules committee reported a special order which closed the general discussion and provided for a consideration for the bill under the 5-minute rule. Chairman Payne handled the bill on the floor and divided the time in such a way that only paragraphs affected by committee amendments and the amendments permitted by the special rule had been considered when the time to vote on the measure was reached.

The Dingley bill was under consideration in the house two days longer than the Payne bill, but the house

was not in session so long each day as in the consideration of the latter measure. All during the general debate on the Payne bill the house sat for ten and a half hours each day, thus establishing a record for that body. Mr. Olmstead (Pa.) presided as chairman of the committee of the whole house throughout the twenty days that were given to the bill.

One of the principal changes effected in the Payne bill since its introduction was the placing of petroleum on the free list. This involved a more seriously contested fight than any of the other amendments. Speaker Cannon, in debate on the amendment to reduce the duty, took the floor in defense of the higher rate of duty. Although an amendment to place oil on the free list was lost Thursday, a similar amendment offered by Chairman Payne Friday was carried.

Duty on Tea Stricken Out.

Among the other important amendments that have been made since the bill came from committee were those striking out the provision for a duty on tea and the countervailing duty proviso on coffee. The elimination of the maximum duty of 20 per cent on coffee, contained in the maximum and minimum section of the bill, was also significant.

To the free list were added evergreen seedlings, cloves and nut oil, which is used in making varnish. The patent law provision, intended to retaliate for the new British patent law, was stricken out on account of an international convention. The so-called "joker" in the cotton cloth schedule, which, it was claimed, would increase the duty of the Dingley bill several hundred per cent, was corrected, the proviso for the method of counting threads in the cloth being made the same as in the present law.

The section restricting the contents of packages of tobacco was amended to conform with the present law that union labels may not be excluded from such packages. The drawback section was added so that it could not be taken advantage of for the purpose of speculating in grain, and the Philippine free trade provision was amended so that rice will not be admitted free from the islands. The countervailing duty clause on lumber was stricken out, but a strong effort to place lumber on the free list did not succeed.

The duties on barley, barley malt, charcoal, iron, pineapples in crates, saccharine, medicated cotton, and cotton collars and cuffs, as originally in the bill, were increased. To retaliate against Turkey, which country prohibits the importation of American filler tobacco, a proviso was included in the tobacco schedule increasing the duty on filled tobacco from any country which prohibits the importation of the American tobacco.

The internal revenue was also amended so that raisers of tobacco will not have to pay a manufacturer's license to dispose of their leaf tobacco. There were several technical changes in the steel schedule, principally downward. Lace curtain and netting machines were included in the proviso which permits the entry free of duty of lace machinery prior to May 1, 1910. Hides, hosiery and gloves were left as reported by the committee, hides remaining free, and an increased duty being presented for gloves and stockings.

KENTUCKY NEGRO LYNCHED

Mob of Farmers Hangs Colored Youth to a Tree.

Hopkinsville, Ky., April 10.—Ben, alias "Booker," Brame, a negro eighteen years old, was lynched by a mob of between 200 and 300 farmers for attempting to assault Miss Ruth Gee, seventeen years old, daughter of William Gee, a prominent Trigg county farmer.

Brame attacked Miss Gee in a woods near her home and was prevented from overpowering her by a little sister, Sallie May Gee, who fought him with an axe. The screams of the girls brought their mother to their assistance, and the negro escaped. After an all-night search the mob located Brame and carried him before the Misses Gee, who positively identified him.

Restraining the father of the girls from shooting the negro, the mob carried Brame to Flat Lick near the Trigg and Christian county line, and hanged him to a tree. The mob then quietly dispersed.

Battle With Moonshiners.

Tazewell, Va., April 10.—In a pitched battle between moonshiners and revenue officers in Buchanan county it is believed that one or more of the moonshiners were killed. The gang were operating a whiskey distillery when surprised by the officers, who began shooting as soon as the moonshiners showed fight. It is reported that the distillery was operated by a man and his wife.

MRS. SAMPSON IS ACQUITTED

Found Not Guilty of Murder of Her Husband.

HOLDS IMPROMPTU RECEPTION

Defendant in Famous Case Shakes Hands With Her Lawyers and Each of the Jurors and Also Thanks Representatives of the Press—Declines to Make Any Statement for Publication—District Attorney Satisfied

Lyons, N. Y., April 10.—Mrs. Georgia Allyn Sampson, the young woman who has been on trial for her life here since Monday on the charge that she had shot and killed her husband, Harry Sampson, was acquitted and was immediately given her freedom.

Mrs. Sampson was trembling perceptibly when the jury announced its verdict, but she recovered her composure immediately and smilingly received the embraces of her father and other relatives and the congratulations of her friends. She held an impromptu reception in the court, thanking and shaking hands with her law-

yers and each of the jurors and also greeting and thanking representatives of the press. Mrs. Sampson declined to make any statement for publication.

District Attorney Gilbert, in speaking of the verdict, said:

"I am satisfied. I have done my full duty by the people and by the prisoner."

Mr. Gilbert, though a cousin of Mrs. Sampson by marriage, stood to his duty and prosecuted the case as vigorously as the facts would permit.

The last day of the trial was spent in presenting the defense's case and in listening to the closing addresses of the state and the defense, and to the charge of Judge Rich.

TWO MEN BURNED TO DEATH

Three Others Seriously Injured by Explosion of Oil.

Point Richmond, Cal., April 10.—Two men were burned to death and three others seriously injured, one fatally, was the result of an explosion in one of the oil stills of the Standard Oil company. The fire, which was scattered over eight acres, was fought for over an hour by 1,500 men. The damage will reach \$50,000. The dead are:

John Granger, gate-keeper; Charles Lawrence, chief clerk.

The injured are Electrician Smith, seriously burned; — Peral, teamster, probably will die; another teamster, name unknown.

The still which exploded had a capacity of 10,000 barrels and as near as can be learned the bottom fell out of it, causing an explosion which ignited the oil and scattered it for eight acres, burning everything which it touched.

Lawrence, who was passing the still at the time, was literally covered with burning oil. Granger was also covered with burning oil.

The burning oil surrounded Peral in a lake. By the time he was able to break through his clothing was on fire and his right hand burned off.

Swinburne Near Death.

London, April 10.—Algernon Charles Swinburne is ill with pneumonia and Sir Douglass Powell, who is the physician in attendance, pronounces the poet's condition critical. Swinburne lives with his bachelor companion, Florence Watts-Runton, the poet and writer, in a modest cottage near Putney. Mr. Dunton is also ill with pneumonia.

DAVIDSON WILL TESTIFY

Governor to Appear Before Investigating Committee.

Madison, Wis., April 10.—Governor James O. Davidson will appear before the senatorial primary investigation committee today and tell what he knows about the \$1,200 campaign fund which Game Warden James W. Stone testified last week he handed to the governor in three installments.

Today will be the last day the joint committee is empowered to take testimony.

A special committee of the senate is expected to begin its probe next Tuesday with regard to Senator Stephenson's election to the United States senate on March 4. On that day the walking out of the joint assembly of three Democrats resulted in an election being effected.

MRS. YERKES SERIOUSLY ILL

Widow of Traction Magnate in Poor Health.

New York, April 10.—The legal entanglement which is enveloping the estate of Charles T. Yerkes, Chicago traction man, was added to when arguments on making permanent the receivership of the New York property were made before Judge Ward in the United States circuit court. One of the developments was that Mrs. Yerkes is seriously ill in the big Fifth avenue mansion from a complication of bronchitis, feeble heart and nervous collapse. It was also made to appear in the argument that Mrs. Yerkes stands alone against creditors, heirs and the executor under the will, Louis S. Owsley, all of whom have joined in the petition for the permanent receivership of the New York estate.

STANDARD'S LAWYERS KEEP THEIR PROMISE

Conclude Their Arguments on Schedule Time.

St. Louis, April 10.—The Standard Oil lawyers more than made good their promise to the court to complete by Friday night their arguments in defense of the government's suit to have the big corporation dissolved as a Sherman law violator, finishing with half an hour to spare. John G. Johnson of Philadelphia having completed his address, following Mr. Rosenthal, just thirty minutes before the usual time for adjournment.

The court asked Mr. Kellogg, the government attorney, if he wished to take advantage of the half hour in which to commence his reply, but the federal lawyer said he would rather begin his address in the morning, promising to finish by the usual closing time in the afternoon. Then will end what St. Louis attorneys all agree has been the greatest legal argument every heard in the tribunals of this jurisdiction. Big cases, they have had, but none that engaged the legal talent employed in the Standard Oil case.

The feature of the day's hearing was the argument of Lawyer Moritz Rosenthal of Chicago, who confined his address to a compilation of fact upon fact. More than a score of women were in the courtroom.

After hearing the arguments of the

lawyers, the court will take the case under advisement, but it is not expected in view of the size of the case and the evidence to consider that the opinion will be handed down before fall.

WEEKLY REVIEW OF TRADE

Crop and Industrial Reports Still Very Irregular.

New York, April 10.—Bradstreet's review of trade says trade, crop and industrial reports are still very irregular, but the underlying tone of business generally is slightly more optimistic. All present or future favorable occurrences, however, cannot disguise the fact that some lines of industry are still very much depressed; that the first crop report of the year—that made by the government of winter wheat—is a poor one, indicating a short crop; that buying is still hampered in some sections by unfavorable weather or by the reduced purchasing power of the public, and that caution and conservatism still govern commercial operations to a large degree. Easter trade at retail is classed as fair to good in most parts of the West, fair at the East, but below expectations at the South. Some slight expansion is noted in filling-in orders by jobbers. In wholesale lines there are indications of more confidence in buying for fall. The automobile trade, paradoxically enough, returns one of the best reports of any single industry.

THE Staples World is authority for the statement that a crew drilling for iron in Cass county a few miles from that city has struck a gas well. This is a country of great possibilities.

THE Payne tariff bill has passed the house and while the fight put up for free lumber by the Minnesota delegation was lost, they claim a victory in the protection of 24 cents on barley and 40 cents on barley malt. Compared with the Dingley law the bill carries a reduction of \$1 per thousand on rough lumber.

THE Bemidji Pioneer has just published a magazine supplement which fully sets forth the advantage of that thriving city and it should be widely circulated by the people of Beltrami county. The magazine has over 50 pages of descriptive and illustrated history and information concerning Northern Minnesota that is interesting to the general public.

IN A New Jersey church the other day a \$10,000 bill was put in the contribution box when it was passed and the church people think it was done by mistake and are advertising for the owner. Probably the local newspaper proprietor when he made his usual weekly offering inadvertently mistook the bill for one of the \$100 denomination when unwrapping his roll and dropped it in the box with a clear conscience. He will probably be pleased to give a receipt for the extra \$9,900 on return of the change.

SATURDAY, APRIL 10, 1909.

THE Staples World is authority for the statement that a crew drilling for iron in Cass county a few miles from that city has struck a gas well. This is a country of great possibilities.

THE Payne tariff bill has passed the house and while the fight put up for free lumber by the Minnesota delegation was lost, they claim a victory in the protection of 24 cents on barley and 40 cents on barley malt. Compared with the Dingley law the bill carries a reduction of \$1 per thousand on rough lumber.

THE Bemidji Pioneer has just published a magazine supplement which fully sets forth the advantage of that thriving city and it should be widely circulated by the people of Beltrami county. The magazine has over 50 pages of descriptive and illustrated history and information concerning Northern Minnesota that is interesting to the general public.

IN A New Jersey church the other day a \$10,000 bill was put in the contribution box when it was passed and the church people think it was done by mistake and are advertising for the owner. Probably the local newspaper proprietor when he made his usual weekly offering inadvertently mistook the bill for one of the \$100 denomination when unwrapping his roll and dropped it in the box with a clear conscience. He will probably be pleased to give a receipt for the extra \$9,900 on return of the change.

MAKES STOMACH MISERY VANISH

Stops Fermentation and Relieves Dyspepsia in Five Minutes

END ALL THIS DISTRESS

The Most Obstinate Cases of Indigestion will Find a Prompt Cure

Take your sour stomach—or may be you call it indigestion, dyspepsia, gastritis or catarrh of stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain triangle and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is food fermentation—food souring; the digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of the stomach, bad taste in the mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness and many other similar symptoms.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take some Diapepsin.

END ALL THIS DISTRESS

The Most Obstinate Cases of Indigestion will Find a Prompt Cure

Take your sour stomach—or may be you call it indigestion, dyspepsia, gastritis or catarrh of stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain triangle and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is food fermentation—food souring; the digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of the stomach, bad taste in the mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness and many other similar symptoms.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take some Diapepsin.

LAND IS BOOMING NEAR MILLE LACS

Sales Reported at \$22.50 and \$25 in the Town of Garrison, Crow Wing Co.

MAY MEAN NEW RAILROAD

Some People Believe Purchases Mean the Construction of Line From Onamia North

There is considerable activity in lands in southeastern Crow Wing county. Parties from Duluth have been quietly picking up land in the towns of Platt Lake, Roosevelt and Garrison for some time. It is reported that J. L. Smith has disposed of what is known as the Marks holdings near Midland at \$22.50 per acre. E. R. Smith, when asked about the matter denied that the land had been sold, but admitted that there were negotiations pending. Among other sales reported are those of W. N. Holbrook, who received \$25 per acre for 200 acres. Gust Anderson, who received a like price and others, all of whom received good prices. Several of the sales have been to W. D. Edson and his associates at Duluth.

There are rumors that the Soo line is back of the deal and that it means a railroad north from Onamia. Be this as it may it is a good price for land that far from market or from the iron range.

Frank Bell Injured

Great Northern Division Superintendent Frank Bell of Melrose, was quite seriously injured Wednesday night while riding in his special car. An extra had been sent to Sandstone and Mr. Bell's private car was attached at Milaca. When the train was approaching Brook Park, it broke in two and the brakes were set with such violence that the cars were bumped together with a great jar. The train was a long one, numbering at least 70 cars. Mr. Bell was going from the caboose into his private car when the shock came and he was thrown against the door. A big gash was cut in his forehead and he was unconscious for some time. His car was set out at Sandstone and a physician was called. He came to St. Cloud yesterday, his car attached to No. 31 and went to Melrose last evening. It is believed that his wound will not result seriously.—St. Cloud Journal Press.

May Invade Deerwood

The Dower Lumber company may add another yard to their long list. W. H. Hipple was at Deerwood last week to look the ground over with that end in view. The iron doings there is attracting more or less capital and a boom for the town is naturally looked for and in that event the Dower concern wants to be on the ground floor to furnish lumber for the new buildings. Nothing definite has been decided on as yet we understand.—Verndale Sun.

STRAIN TOO GREAT

Hundreds of Brainerd Readers Find Daily Toil a Burden

The hustle and worry of business men, The hard work and stooping of workmen,

The woman's household cares, Are too great a strain on the kidneys.

Backache, headache, sideache, Kidney troubles, urinary troubles follow.

A Brainerd citizen tells you how to cure them all.

Mrs. Henry Elling, living at 119 Second Ave., Brainerd, Minn., says: "Off and on for several years my husband was troubled with his back and kidneys. At times it was only an uncomfortable feeling of weakness, and then again his back ached severely. Having been told about Doan's Kidney Pills he procured a box from H. P. Dunn's drug store and began taking them. Since using this remedy Mr. Elling has ceased to complain of kidney trouble and recommends Doan's Kidney Pills in the highest terms."

DANGEROUS FAKES

Tricks to Introduce Alum Baking Powders Which Should be Exposed

There has recently been attempted at some of our grocery stores, and also at dwelling houses, by agents who are trying to sell alum baking powders, what the exhibitors call a baking powder test. They pretend to show by some boiling test that pure cream of tartar baking powders contain something which every woman of intelligence knows they do not. It does not need a chemist to expose this trick. Cream of tartar, which is the chief constituent of the best and most wholesome baking powder, is originally a clear, white crystal. This is ground into a fine, creamy flour in which form, mixed with baking soda it is present in the baking powder. Cream of tartar, when mixed with water and boiled simply returns to its crystalline form, and that is all there is to the so-called test.

The matter of special interest to the public is to know what these people offer in place of cream of tartar powders of well known purity and established reputation against which these slanders are directed. They are offering a baking powder which analyses have repeatedly shown is made from alum, a drug so well recognized by physicians and scientists as injurious to health that in many countries its use in bread is entirely prohibited. So cheap and inferior are the ingredients of this powder that it costs to make less than three cents a pound. No prudent housewife will knowingly put such stuff as this into her food.

Don't drug the stomach, or stimulate the Heart or Kidneys. That is wrong. It is the weak nerves that are crying out for help. Vitalize these weak inside controlling nerves with Dr. Shoop's Restorative and see how quickly good health will come to you again. Test it and see! Sold by H. P. Dunn. t t f

Wedding Announcement

Two Harbors, April 9.—Hans C. Hanson left for Hot Springs, Ark., where on April 12 he will be united in marriage to Miss Grace Woolman, at the home of relatives in that city. Miss Woolman is well known in this city, having taught school in the Silver Creek district for two years. Mr. Hanson has been a resident of the city for a number of years and has been engaged in farming north of the city during the past seven years.

He has held the position of road overseer and has for the past two years held an appointment as county supervisor of highways. Mr. Hanson has recently completed a house, on Second avenue where he and his bride will reside after a short wedding trip.

Miss Woolman's many Brainerd friends will extend hearty congratulations.

DEADLOCK, BUT NO STRIKE

Only Danger of a Suspension of Mining in the Near Future Arises From the Possibility of the Refusal of the Operators to Permit the Miners to Work Without an Agreement Statement, Issued by Employers.

Philadelphia, April 10.—After conferences extending since Wednesday between anthracite coal operators and officials of the United Mine Workers of America, at which the question of a wage agreement to replace that brought about by the anthracite strike commission was discussed, the operators rejected the modified demands of the miners presented Thursday, and the conference adjourned in a deadlock.

There will be no strike inaugurated by the mine workers, however, and the only danger of a suspension of mining in the near future, according to the mine workers' officials, arises from the possibility of the refusal of the operators to permit the miners to work without an agreement.

The modified demands of the miners requested that the mine workers be recognized as "anthracite workers," and that conditions regarding new work by the miners, in which wages were involved, and which would give increased pay to the miners, be improved. Although the entire proposition of the miners as modified was finally rejected, the operators gave out a statement in New York, where they went immediately after the conference, in which they claim they offered to submit the "new work" complaint to the conciliation board created by the anthracite strike commission.

English Boat Wins Race.

Monte Carlo, April 10.—The English boat Wolsley-Siddeley, owned by the Duke of Westminster, won the race for the cup of nations, covering the 100 kilometers (about 62 miles) in 1 hour, 35 minutes and 9 seconds. The German boat Dixie II, several other craft representing England and Germany, and entrants from France and Italy, also competed.

Swept Over Niagara.

This terrible calamity often happens because a careless boatman ignores the river's warnings—growing ripples and faster current—Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention if you would escape fatal maladies—Dropsy, diabetes or Bright's disease. Take Electric Bitters at once and see backache fly and all your best feelings return. "After long suffering from weak kidneys and lame back, one \$1.00 bottle wholly cured me," writes J. R. Blankenship, of Belk, Tenn. Only 50c at H. P. Dunn. t t s

Husband and Wife Dying.

Santa Anna, Tex., April 10.—Robert Rice, a wealthy planter, and his wife are dying from the effects of wounds inflicted by the same bullet. Despondent because of continued ill-health, Rice placed a revolver against his head. His wife grabbed the weapon. In the struggle it was discharged, inflicting on both what physicians declare are fatal wounds.

SCENES OF WILD DISORDER

Characterize Closing Hours of Iowa General Assembly.

Des Moines, Ia., April 10.—Scenes of the wildest disorder characterized the closing hours of the thirty-third general assembly. The bitterness between the dry and wet factions, which has been marked during the entire session, resulted in heated clashes up on the floor of the house and near personal encounters.

The big fight of the day was the effort of the drys to force out of the hands of the sifting committee the Hammill bill requiring drug store liquor permits to be consecutively numbered and the Moon bill limiting the number of saloons to one for every 1,000 inhabitants in such cities as permit the sale of liquor. The majority of the committee refused to recommend the bills for passing unless modified.

Representative Holmes of Kossuth county, who, by the way, is a Congregational preacher, told Harding of Woodbury, chairman of the committee, that he was "so crooked that he couldn't lie straight in bed." Harding promptly informed the preacher-legislator that he was "a liar," and if he repeated those words he would stand him up against the wall and slap his face.

The sergeant-at-arms rushed between the two men and sent them to their seats.

The matter was compromised by the passage of the Hammill bill and agreeing that the Moon bill might pass, but not affect saloons already in existence. Most of the session has been spent in wrangling over temperance legislation. Many restrictive laws have been passed, but neither side is satisfied.

The drys will organize at once a campaign for constitutional prohibition which many predict will win two years hence.

Words To Freeze The Soul.

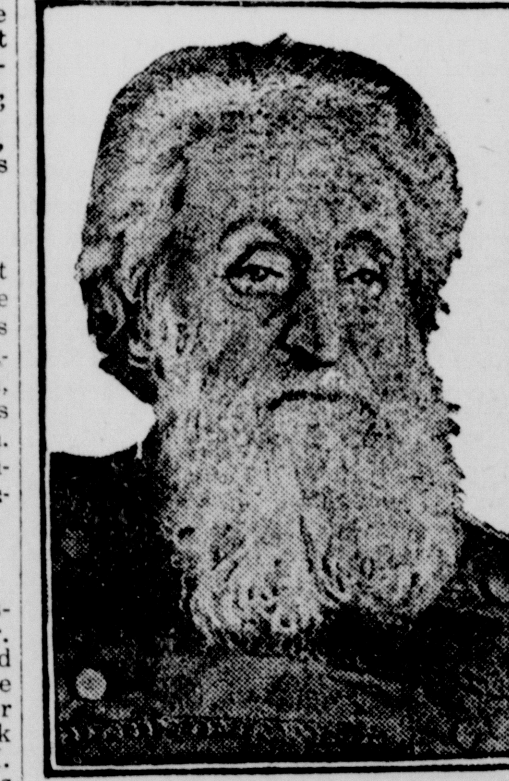

"Your son has' consumption. His case is hopeless." These appalling words were spoken to Geo. E. Blevens, a leading merchant of Springfield, N. C., by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Blevens, "he was as well as ever. I would not take all the money in the world for what it did for my boy." Infalible for coughs and colds, it's the safest, surest cure of desperate lung diseases on earth. 50c. and \$1.00. GENERAL BOOTH IS EIGHTY YEARS OLD

Followers of Salvation Army Leader Celebrate Event.

London, April 10.—From all parts of the civilized and uncivilized world into which the Salvation Army has extended its work have come today letters, telegrams and cablegrams of congratulation for General William Booth on the completion of his eightieth year. Thousands of members of the army have assembled here to celebrate the anniversary and advices received here indicate that the day is being celebrated by the army throughout the world.

The army's building is the scene of the steady arrival and departure of

delegations bearing to him good wishes from many quarters of the globe.

General Booth is taking advantage of his latest project for spreading the work of the army. He is advocating the establishment of the World University of Humanity, with branches in Great Britain, America and elsewhere, whose purpose it shall be to train men and women for work among the poor, the down trodden and the churchless. He asks \$5,000,000 to make his plans effective.

Ice Jam on Niagara.

Niagara Falls, N. Y., April 10.—An ice jam of immense proportions completely covers the surface of Niagara river from the cataract to Lake Ontario. The damage already done to docks and boat houses is estimated at \$75,000. Hourly the jam is becoming more solid and thick and the only hope of saving any dockage on either bank is a quick thaw without wind.

Taft Wins a Victory.

Washington, April 10.—President Taft has won a signal victory for the Philippine islands in the acceptance by the senate committee on finance of the provision of the Payne bill for the free admission of 300,000 gross tons annually of Filipino sugar.

The Modesty of Women

Naturally makes them shrink from the delicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispensed with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials. The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. REJECT TERMS OF THE MINERS

Anthracite Coal Operators Refuse to Grant Demands.
